

COLLABORATiVE VENTURES

iNSPIRED PRACTiCE believes in the value of harnessing collective ingenuity to spur success. We use a cutting edge facilitation technique to assist clients and groups at turning points move past road blocks toward success. We do this by practicing Deep Democracy.

Deep Democracy offers a new way of seeing situations and the necessary skills to improve decision-making, enhance productivity and performance, and achieve breakthroughs in seemingly impossible-to-solve issues. Deep Democracy is an opportunity to surface untapped wisdom and create the necessary buy-in to make decisions stick.

an iNSPIRED tale

Just the other day,
in a land not so far away, came
iNSPIRED PRACTiCE...

It was born from the belief that ambition coupled with compassion could evolve us toward an economy that promotes quality of life for all and enriches our natural environment.

We achieve that by inspiring, informing and empowering our clients to build a better world.

KRISTLE CALISTO-TAVARES
Founder & Innovator

iNSPIRATION behind the frog

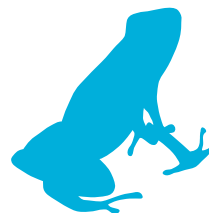

Kristle Calisto-Tavares is pioneering the way forward. Headed by a vibrant young woman who is guided by her passion for sustainability, iNSPIRED PRACTiCE is redefining progress.

Kristle demonstrates the worth of social and environmental leadership as a way to build resilience in business, government and the non-profit sector. She seeks to engage others in *being the change we wish to see in the world*.

CHANGE THE WORLD AT WORK

This is the dawn of a new era – one where environmental, social and financial returns are no longer mutually exclusive. All sectors are being pushed to develop a new industry standard that reflects Corporate Social Responsibility.

Change the World at Work is an interactive presentation series designed to build capacity – placing knowledge in the hands of those who can transform their industries. Through scenarios and basic strategies, Change the World at Work supports enterprises in integrating Corporate Social Responsibility into their day-to-day decision-making, professional practices and workplace culture.

SUSTAINABLE ENTERPRISE

A sustainable enterprise has staying power and stands the chance of being more successful tomorrow than it is today.

Measuring your organization's ecological footprint is an excellent step on the path toward sustainability. The greatest outcomes result from first 'greening' your organization's core values and policies. It is this approach that makes iNSPIRED PRACTiCE unique and better positions you for success. Through a customized toolkit and highlighted opportunities to maximize your triple bottom line, iNSPIRED PRACTiCE assists clients in authentically balancing people, profit and planet.
